CLARK WaterVault™

The Clark WaterVault™ underground rainwater storage system is the ultimate solution to collecting and storing rainwater in a safe, efficient, reliable and eco-friendly way that fully complies with government legislation. German engineered and Australian made, WaterVault is designed to last and maintain high water quality to provide you with many years of trouble-free service.

- 5,000 litre capacity
- Saves space and hidden from view
- Maximises rain collection
- High water quality for trouble-free operation of internal plumbing connections
- Strong, durable design and construction
- Trafficable up to 12.5 tonnes
- Child-proof safety cover
- Auto switch to mains supply when needed
- Easy maintenance
- 12 year warranty (tank only)

Included with every water tank

Stainless steel mosquito-proof screen

Stainless steel mosquito-proof overflow

Algae-free cover top

Brass outlet and valve

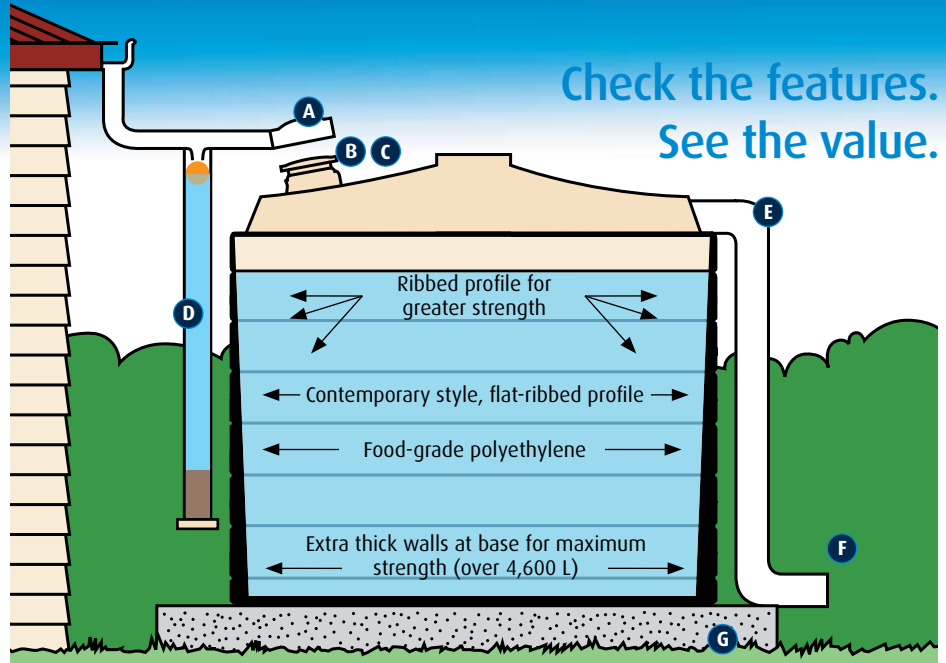

Guidelines for typical water usage

Drinking, cooking, cleaning per person per day	10 litres
Shower (10 minutes)	200 litres
Toilet flush	5 - 10 litres
Garden sprinkler per hour	1,000 litres
Average tap @20 psi (per minute)	45 litres
Cattle per day	45 - 90 litres
Milking cows per day	135 - 180 litres
Sheep/pigs per day	4 - 9 litres

About Tanks Direct

Tanks Direct is a premier brand of polymer tanks. Manufacturing since 2001, Tanks Direct tanks are designed and built to last in tough Australian conditions. As an Australian owned and operated company, Tanks Direct is committed to providing quality products designed to meet the needs of rural and residential Australia.

Your local reseller:

- A** Algae free cover stops sunlight entering tank and keeps water algae free
- B** Large UV stabilised strainer
- C** Raised strainer mount ensures frog-proof fit
- D** Optional water diverter prevents the first flush of dirty rainwater from entering the tank
- E** Raised overflow outlets ensure maximum water storage
- F** 90mm gauze stops frogs and mosquitoes entering tank
- G** Base can be constructed with concrete or crusher dust

Bolted steel panel tanks

AQUACON
ENGINEERED LIQUID STORAGE

AquaCon designs, manufactures, supplies and constructs medium to large-volume bolted steel liquid storage systems. The AquaCon advantages include:

- High corrosion resistance
- Safe construction process
- No on-site cutting, welding or coating
- Up to 25 ML capacities
- Easy shipping modular design
- State-of-the-art technology
- Globally recognised design code
- In-house engineering & project management
